

cdg, the complete solution, has been in circulation since 1989 but have only recently re-branded from the well established company name Concept Design Group...

CDG Newsletter May 2007

CDG is one of Irelands leading design houses

We cater for all industries and aspire to improve your company's selling potential through the redesign of your marketing collateral, from your corporate identity or suite of brochures to the development of your website. CDG can provide any form of design required from the simplest brochure to the most in-depth and complex websites. We are not only renowned for our design compatibilities but also for our extensive technical know how.

Recently CDG have just launched Cavan Crystal Design's website which can be viewed on www.cavancrystaldesign.com.

Cavan Crystal is the second oldest crystal factory in Ireland and was founded in 1969. One of the main attractions to this site is the advantage of the online shopping catalogue which CDG developed within this site. It also has a fabulous wedding planner facility. We hope you enjoy it...

Since March's issue CDG have been involved in many different projects. Here is just a small sample of work we have completed

We have re-designed a new Kevin Kavanagh Gallery website which can be viewed on www.kevinkavanaghgallery.ie

We have produced some smart new brochures for Kingspan – Kingszip Project Profile and Roof Tile Project Profile.

We have produced a complete marketing package for Conneely Construction where we produced a corporate brochure and a new website which they can manage the content themselves. www.conneelyconstruction.com

All in all we have been pretty busy. If you would like us to improve your Sales Potential within your desired market through whatever medium, don't hesitate to call us. To find out more about CDG go to www.cdg.ie or call us on 01 640 2000.
